

Telemedicine and Remote Healthcare

Individual Change Presentation

MGMT4419 001

By **Maharshi Patel**

What is Telemedicine?

What is the Change?

Positive Consequences and Impact

**Increased Access to
Healthcare**

**Cost Savings for patients
and Providers**

**Speed of Diagnosis and
Treatment**

**Flexible healthcare
Delivery Methods**

Technological Innovation

**Adaptation of healthcare
Delivery Models**

**Enhanced Chronic
Disease management**

Negative Consequences and Impact

Quality Concerns

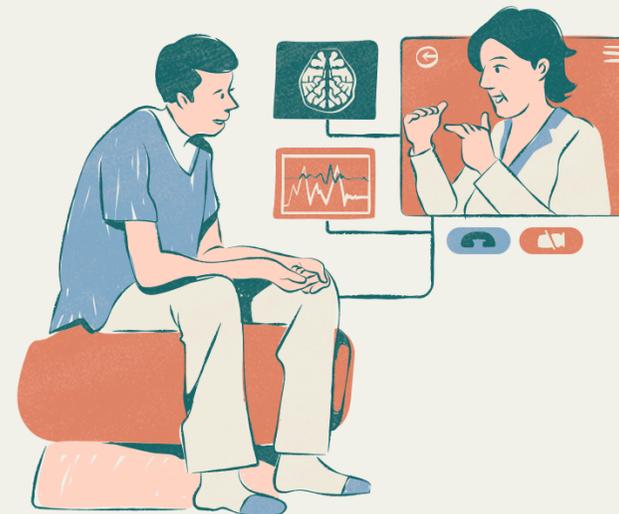

Technological Barriers

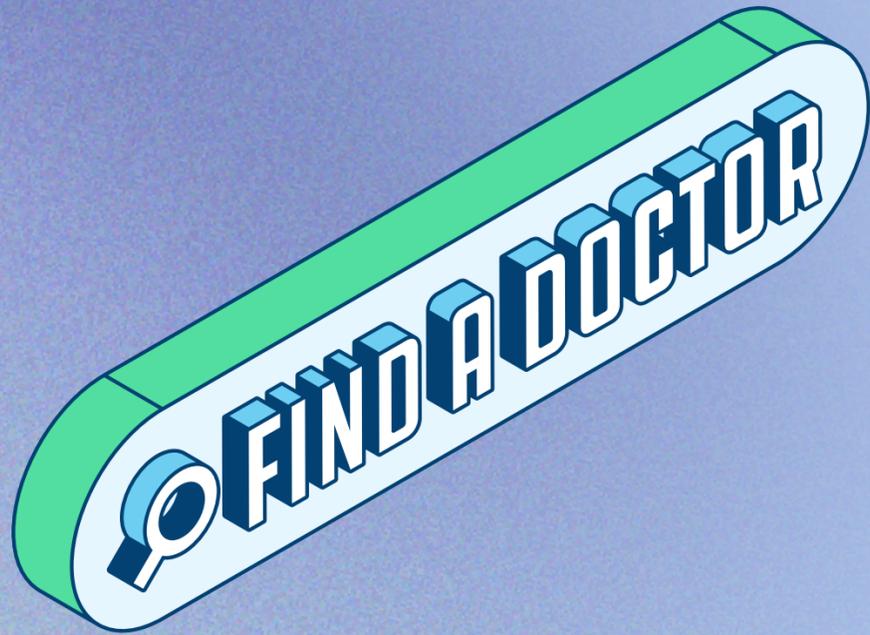

**Privacy and Security
Concerns**

Regulatory Challenges

**Cultural shift and patient
Resistance**

**Job Displacement
concerns**

Resistance

- Quality concerns
- Regulatory Hurdles
- Technological barriers
- Privacy and security concerns
- Cultural and behavioral Factors
- Resistance from Traditional Healthcare Institutions
- Risk Aversion and Fear of Job Displacement

Internal and External Forces Shaping the Rise of Telemedicine:

External Forces

- Technological Advancements
- Regulatory Changes
- Consumer Demand and Preferences
- Pandemic Impact

Internal Forces

- Organizational Readiness and Investment
- Cultural Shift in Healthcare
- Patient Education and Engagement
- Data Security and Privacy Measures

Reason for Change

A white speech bubble with a black outline and a drop shadow, containing the text 'Societal Expectations'.

Societal
Expectations

A white speech bubble with a black outline and a drop shadow, containing the text 'Global Health Crisis'.

Global Health
Crisis

A white speech bubble with a black outline and a drop shadow, containing the text 'Advancements in Technology'.

Advancements
in Technology

Implementation of the eChange Process

Strategic
Planning

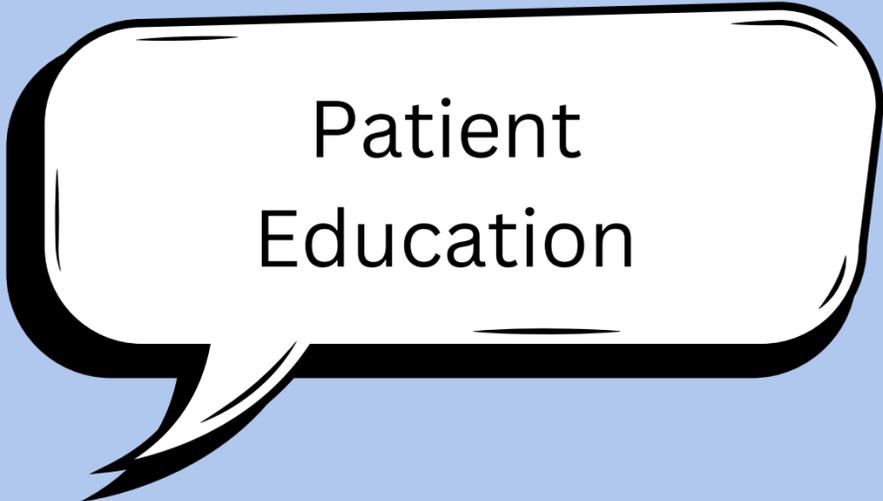

Technology
Integration

Training and
Education

Regulatory
Compliance

Patient
Education

Conclusion
